

Promoting Sustainable Biogas Utilisation in the EU

Thank you for your interest in participating in a joint partnership on biogas development with the BiogasACTION project.

Please fill in the questionnaire below and send your feedback to your BiogasACTION contacts available at <http://biogasaction.eu/category/partners/>

or directly to raee@raee.org

BiogasAction aims to promote the production of sustainable biogas throughout the EU, especially by exchanging best practice, creating new business models, and increasing investments in biogas production.

The objectives of the project are:

- **To identify and disseminate proven support strategies and guidelines**, to fulfil the potential for biogas and biomethane development in Europe.
- **To define and implement a specific biogas/biomethane intervention strategy** in each target country/region. The project plans 50 specific quality, sustainable biogas projects in the intervention regions.
- **To exchange knowledge and experience within and beyond the target areas** and the project life time.

Expectations and needs for your region:

Contact details:

Name:	
Position:	
Telephone:	
Email:	

Organisation:	
Country/Region/Territory covered by your organisation:	

1. **What is the role of your organisation in the region/territory related to biogas?** (Tick all that apply)

- You are a public authority with a dedicated policy and/or support scheme(s) for new biogas development within your territory
- You are a public authority having already identified biogas potential as part of a Sustainable Energy Action Plan or similar plan
- You are an energy planning facilitator (energy agency, consulting organization, cluster..) providing support in biogas development.
- You are a structure investing in biogas projects (please specify)
- Other (please specify)

2. **Do you or your region (territory) have specific targets or commitments in relation to biogas development and production? Please describe.**

3. **Do you have experience in biogas policy and/or project development? Please provide examples and links as appropriate.**

4. **When considering biogas development, what is/are the key challenge(s) that you would like to address through this exchange?** (Tick all that apply)
- Institutional building,
 - Strengthening biogas sector framework
 - Optimizing business model and financing
 - Optimizing biogas production
 - Assistance to specific high quality biogas project development
 - Other (please specify)
5. **What is the outcome or objective that you would like to achieve from the joint exchange? Please consider SMART objectives where possible** (Specific, Measurable, Achievable, Realistic and Timely)
6. **What expertise / characteristics would you like from the organisation you would be partnered with?** (size of project and type of biogas plant, experience in a specific area, language, etc.)
7. **Do you have resources available for this joint exchange? (Please see practical information below), please describe.**

Practical information on joint exchanges

How does the exchange happen between regions?

- One study visit (up to 2 persons, up to 2 days) from your region to the BIOGASACTION joint exchange partner region to learn more about best practices in place and to exchange experience;
- One visit of BIOGASACTION experts (2 persons, up to 2 days) to your site to provide technical support;
- Remote (phone, mail, Webinar) support from BIOGASACTION experts;
- Joint evaluation of the results and of the process of the exchange;
- Promoting at European level the replication partner's commitment to work and implement a favorable environment for biogas development.

What does the importing region need to commit to?

- An official statement from your organization's representative for supporting biogas development in your region/territory (email or support letter);
- Implementation of 2 study visits (one as host and one as visitor), see above;
- Participating in evaluation of the process, giving feedback and information;
- Willingness to participate in the final BIOGASACTION European conference;

Which costs are covered by the BIOGASACTION project?

- Staff costs for consultancy of BIOGASACTION expert organization;
- Local accommodation expenses (hotel, meals, local transport, catering) when your region is visiting the BIOGASACTION expert organization;
- Travel costs for BIOGASACTION expert organization to your region.

What costs do you as a joint exchange partner need to cover?

- Travel costs for your staff when visiting the BIOGASACTION expert organization;
- Local transport, meeting venues, meals/coffee break etc. when the BIOGASACTION expert staff is visiting you;
- Travel costs for participating in BIOGASACTION final conference (to be discussed with the joint BIOGASACTION expert organization).
