

Biogas ACTION

UK AD & Biogas 2016

Andy Bull from Severn Wye was part of a panel at a seminar discussing small-scale anaerobic digestion, held during the UK AD and Biogas 2016 event at the Birmingham National Exhibition Centre. He told the audience about the work being undertaken, as part of the Biogas Action project, to encourage AD on dairy farms in Wales. The seminar also heard from Clare Lukehurst and Angie Bywater, the authors of a recent report – “Exploring the viability of small scale anaerobic digesters in livestock farming”.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 691755.
